DETAILED ACTION

Response to Amendment

1. The Declaration under 37 CFR 1.132 filed February 6, 2006 is insufficient to overcome the rejection of claims 1-17, 36-38, 51-57 and 6 based upon USPG Pub 2004/0241482 as set forth in the last Office action because: Applicant has not established if said work applicant is swearing behind (Exhibit I) was performed in the USA, a NAFTA OR WTO country—see MPEP 715.07 (c).

Response to Arguments

2. Applicant's arguments filed February 6, 2006 have been fully considered but they are not persuasive. See above. However, applicant's arguments regarding the OPD over USPG Pubs 2004/0241482 are convincing and therefore the rejection is withdrawn.

Terminal Disclaimer

3. The terminal disclaimer filed on February 6, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Application number 10/749,451 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

5. Claims 1-17, 36-38, 52-57 and 60 are rejected under 35 U.S.C. 102(e) as being anticipated by Grah et al (2004/0241482)

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a

Art Unit: 1711

showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

6. The text of this rejection can be found in a previous office action.

Allowable Subject Matter

7. Claims 18-35, 39-44, 58-59 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to teach the combination of the independent claims with the limitations of said above listed claims.

9. Claims 45-51 and 60 are allowed.

10. The following is an examiner's statement of reasons for allowance: The inclusion of the 0.001 parts by weight of the single-walled nanotubes with the specific polymers as found in claim 45 is the primary reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no

event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
